

# TEUTON Z 60

Eggersmann High-Torque Single-Shaft Shredders

Recycling Technology

sales@f-e.de | www.f-e.de

The Eggersmann TEUTON Z 60 is even bigger and more powerful than its predecessors. Even stubborn material succumbs to the 600 hp rotor. High power and maximum versatility - that's the TEUTON Z 60.

## Product Highlights

- › Easily exchangeable and robust rotor tools with double-bolt fixing
- › Long-life 'Marathon' shredding rotor (resistant to contaminants), able to reverse
- › Easy feeding due to the 5 m wide feeding area
- › Tool-free cutting gap adjustment to 11 positions
- › Screen basket system for specified and consistent product sizing

## Applications

- |                                 |               |
|---------------------------------|---------------|
| › Waste Wood<br>– 65 t/h*       | › Roots       |
| › Green Waste<br>– 90 t/h*      | › Bulky Waste |
| › Household Waste<br>– 115 t/h* | › Tires       |
| › Commercial Waste<br>– 60 t/h* |               |
- \* Production: Depending on material, weather and machine condition

## Product Features

### Reversing Rotor

- › Hydromechanical drive reverses the rotor in the event of resistance
- › Extremely efficient even with difficult material
- › Proof against contaminants

### Bolted Rotor Teeth

- › Easily exchangeable rotor tools
- › Double-bolt fixing for a strong hold

### Maintenance

- › Fully illuminated motor compartment
- › Large maintenance doors

### Large Infeed Area

- › 5 m wide feeding area → easy and quick to feed

### Shredding Unit

- › Marathon Rotor
- › Cutting gap adjustment to 11 positions
- › Spiral rotor tools mounted in three rows
- › Various rotor tools such as Unigrip or Twincutut

### Shredder door

- › The hydraulically swing-out shredder door allows for easy access to the shredding compartment with integrated access ladder

### Cutting Gap Adjustment

- › Choose from eleven different settings to set the product size
- › No tools required for the adjustment

### Rear Conveyor Belt

- › Steplessly adjustable discharge height (max. 5 m)
- › Extra wide conveyor belts for blockage-free discharge

## Options

### Screen Basket System

- › Able to make a specified and consistent product in one pass only
- › Stripe shape and hexagonal screen baskets in different sizes

### Various Rotor Tools

- › Multigrip - Unigrip - Twincut - Rootgrip for different applications
- › Tools are also available with hard facing for extra durability

### Material Humidification

- › Effective dust suppression in the material discharge and feed area

### Overband Magnet

- › Extra strong neodymium magnet
- › Hydraulically height-adjustable
- › Material discharge possible on both sides
